SUMMARY

As a Frontend Developer, I excel in **HTML, CSS, JavaScript**, and **React.js**, with strong skills in **Tailwind CSS** and **Responsive web design**. I create engaging, user-friendly web applications, focusing on performance, aesthetics, and cross-device compatibility.

SKILLS

Languages: Java Script, Python

Frontend Development: HTML, CSS, JavaScript, React.js

Frameworks & Libraries: React.js, Tailwind CSS, Bootstrap

Others: GitHub, Netlify, Responsive web design.

EDUCATION

- Bachelor of Computer Applications | Regional College (MJPRU) (Aug'21 - July'24)
- XII (CBSE) | Woodrow Senior Secondary School 2021

EXPERIENCE

- **Front-end developer Intern | Web Microsystems** (Mar'24 - June'24)
 - Developed responsive web applications with HTML, CSS, and JavaScript.
 - Created dynamic UIs using React.js.
 - Used Git and GitHub for version control.
 - Designed and optimized web pages for performance and usability.
 - Collaborated in team meetings and code reviews.

ACADEMIC PROJECTS

- **My Personal Portfolio Website** [Demo](#)

"Explore my personal portfolio, a sleek and responsive showcase of my skills and projects. Built with React.js and enhanced with Framer Motion, the site offers a dynamic and engaging experience that reflects my expertise in modern web development."
- **Recipe Finder App** [Demo](#)

"Created a highly engaging recipe app that empowers users to effortlessly find desired recipes through intuitive category, name, and alphabetical search options. Delivered a visually appealing and responsive design for optimal user experience."
